

## Cisco® Certification

### *Gain a true competitive advantage*

Today, networks are an essential part of business, education, government and home communications, and Cisco Systems is the worldwide leader in networking for the Internet. Cisco hardware, software, and service offerings are used to create Internet solutions that allow individuals and companies to increase productivity, improve customer satisfaction and strengthen competitive advantage.

The widely respected Cisco Certifications bring valuable, measurable rewards to network professionals and the organizations that employ them.

#### **General Certifications:**

- **Network Installation and Support** – This path is for professionals who install and support Cisco technology-based networks in which LAN and WAN routers and switches reside
- **Network Engineering and Design** – This path is for professionals who design Cisco technology-based networks in which LAN and WAN routers and switches reside
- **Service Provider** – This path is aimed at professionals working with infrastructure or access solutions in a Cisco end-to-end environment primarily within the telecommunications arena
- **Network Security** – This path is directed toward network professionals who design and implement Cisco Secure networks

#### **Who will Benefit from Cisco Certification?**

Professional Certification is an important tool in building and retaining an effective workforce. It rewards organizations by providing employees with increased skills, enhanced productivity, confidence and motivation. Individually, those involved in the design, deployment, implementation or optimization, and troubleshooting of the corporate network, including systems engineers, network engineers, Internet webmasters, network designers, installers and analysts or any part of the infrastructure support staff can all benefit from Cisco Certification.

#### **New Horizons Integrated Learning® Combines Multiple Learning Methods for More Effective Results**

New Horizons will bring immediate value to your organization through our Integrated Learning approach, which encompasses more than just "taking a class." It's a complete method of training, reinforcing, supporting and validating learning through flexible delivery options including Classroom Learning, Online LIVE Learning, Online ANYTIME Learning, and Mentored Learning.

Our learning solution has the ability to assess the skills of individuals before and after class and provides post-class resources to increase knowledge retention, thereby offering a better return on your investment of time and money. Students have access to electronic courseware and Online ANYTIME tutorials, vLabs featuring hands-on experience with real equipment, practice exams, our online interactive technical reference library and more. And, don't forget, courses may be retaken for up to six months from the original class date, absolutely free.

#### **New Horizons Provides a Total Training Solution**

New Horizons offers a variety of courses and certifications that will create a well-balanced training program and can be bundled together as course training options. For example, Information Security Training, Project Management and Business Productivity are only a few of the options available. Certification exams are also available at the same location.

#### **Learn from the Leader**

With over 20 years experience, more than 250 training centers in over 50 countries and over 2,200 instructors, New Horizons is the world leader in computer training.

#### **Strengthen Your Competitive Advantage with Cisco Certification Today**

New Horizons provides a one-of-a-kind training experience on Cisco Certifications that translates into increased productivity and improved customer satisfaction for your organization.
