

Microsoft® Windows Server 2003 Training

Train your staff to be as advanced as your server

Microsoft Windows Server 2003 Training Will:

- *Increase productivity*
- *Reduce downtime*
- *Aid in lowering your total cost of ownership*

New Horizons®
 Computer Learning Centers
 CHOOSE. LEARN. SUCCEED.

With the latest advancement from Microsoft in operating systems technology, organizations have the ability to build a robust and dependable enterprise infrastructure on which to manage users, resources and network applications. Proper training on these advancements will provide the maximum effectiveness of this technology, which can result in productivity increases in your infrastructure, reduced downtime and the ability to transform your network into a strategic asset for your organization.

Training in the Microsoft Windows Server 2003 program provides students with the essential skills and knowledge needed to manage their organization's Microsoft Windows Server 2003 system.

Training on Microsoft Windows Server 2003 Will Teach Your Staff How To:

- Implement technical advances that help organizations lower cost of ownership
- Migrate from previous NT/2000 environments to Microsoft Windows Server 2003
- Plan, manage and configure Microsoft Windows Server 2003 for your organization's environment
- Install, configure, administer and trouble-shoot the client-server database management system
- Plan and design a Microsoft Windows Server 2003 Active Directory® service infrastructure
- Design a secure network infrastructure
- Administer systems and create and enforce workstation and server configurations

Who will Benefit from Microsoft Windows Server 2003 Training?

Individuals involved in the design, deployment, implementation or optimization, and troubleshooting of Microsoft Windows Server 2003, including network administrators, system administrators, information technology engineers, information systems administrators, network technicians, systems engineers, technical support engineers, systems analysts, network analysts and technical consultants.

New Horizons Integrated Learning® Combines Multiple Learning Methods for More Effective Results

New Horizons will bring immediate value to your organization through our Integrated Learning approach, which encompasses more than just "taking a class." It's a complete method of training, reinforcing, supporting and validating learning through flexible delivery options including Classroom Learning, Online LIVE Learning, Online ANYTIME Learning, and Mentored Learning.

As the largest network of Microsoft Certified Partners for Learning Solutions and Gold Partners for Learning Solutions in the world, you are guaranteed the most current training solutions from New Horizons. Every course follows the Microsoft Official Curriculum and is taught by a Microsoft Certified Trainer.

Our learning solution also includes the ability to assess the skills of individuals before and after class and provides post-class resources to increase knowledge retention, thereby offering a better return on your investment of time and money. Students have access to electronic courseware and Online ANYTIME tutorials, vLabs featuring hands-on experience with real equipment, practice exams, our online interactive technical reference library and more. And, don't forget, courses may be retaken for up to six months from the original class date, absolutely free.

New Horizons Provides a Total Training Solution

New Horizons offers a variety of courses and certifications that will create a well-balanced training program and can be bundled together as course training options. For example, New Horizons training for Cisco®, Information Security, Project Management and Business Productivity are only a few options. Certification exams are also available at the same location.

Learn from the Leader

With over 20 years experience, more than 250 training centers in over 50 countries and over 2,200 instructors, New Horizons is the world leader in computer training.
